

Understanding the Benefits and Clarifying Roles in Asset Management

WEBINAR SERIES OVERVIEW

WaterWolf has developed a series of webinars focused on key components of asset management planning and implementation. The webinars were designed to provide opportunities for municipal staff, administrators, and council members to come together to learn about asset management and apply learnings to their respective communities.

Each webinar video is about 15 minutes long and features members of the WaterWolf team as well as administrators and council members from WaterWolf communities. Following each webinar, we encourage staff, administrators and council members to further their asset management discussions by working together through the questions provided below.

WEBINAR #1: UNDERSTANDING THE BENEFITS AND CLARIFYING ROLES IN ASSET MANAGEMENT

This webinar module helps community asset management teams understand the importance of having a strong understanding of the different roles of staff, administrators, and council members in implementing asset management processes.

QUESTIONS FOR DISCUSSION

- 1 | ***“Making good decisions requires the right people to have the right information at the right time”***
Who is on our asset management team and what are our individual roles and responsibilities? Do we need more clarity in our roles?
- 2 | How has establishing an asset management team and determining roles improved collaboration and led to better outcomes for our community?
- 3 | ***“Moving from a reactive to a proactive mindset”***
What can our team do to become more proactive in asset management planning and decision-making processes?
- 4 | ***“You can’t manage what you can’t measure”***
What asset information do we have readily available? What asset information do we need to collect to support decision making?
- 5 | How has having strong asset information supported decision making processes?
